DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 5-7 are allowed.

1. The following is an examiner's statement of reasons for allowance: independent claim(s) 1 describe authenticating a user, matching an authorization level to a user, collecting browsable and editable web pages directly based on the user's authorization level relating to goods transactions of a cooperating company, and the authorization is obtained based on four separate tables with entries related to identification number, verification number, user name, associated group names based on an identification number or individual authorization name and user name, and individual authorization name and web page name.

2. The closest prior art of record, Win, does not teach authorization is obtained based on four separate tables with entries related to identification number, verification number, user name, associated group names based on an identification number or individual authorization name and user name, and individual authorization name and web page name. Therefore, independent claims 1 allowable over the prior art.

3. Claims 5-7 are allowed by the same rational as well as the further limitations added by these dependent claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
